Here's the "agenda" from the water contractors' counsel for the meeting next Monday at 2pm. She must have written her message two days ago. She mentions a phone conversation "today", but the only conversation I've had with her was on Wednesday. During that conversation, I made it very clear that we would not be able to discuss our comments on the BDCP DEIS, since we have not yet submitted them to the federal lead agencies. She agreed that that was, in her words, "fair".
